

NEW HOLLAND

E18_{SR}

NEW HOLLAND KOBELCO

NET FLYWHEEL POWER	E18SR 11.3 kW - 15.2 hp
OPERATING WEIGHT (MAX)	1 650 kg
REAR END SWING RADIUS	660 mm
BUCKET CAPACITY	44 l

E18SR*

A GREAT SMALL GENIUS

NEW ENGINE Little powerful engine

The E18SR mounts a top class, last generation engine with a small displacement, low fuel consumption, environmentally friendly and with an exceptional high power

11.3 kw / 15.2 hp

COMPACT AND STABLE Compact, variable gauge undercarriage, and foldable blade

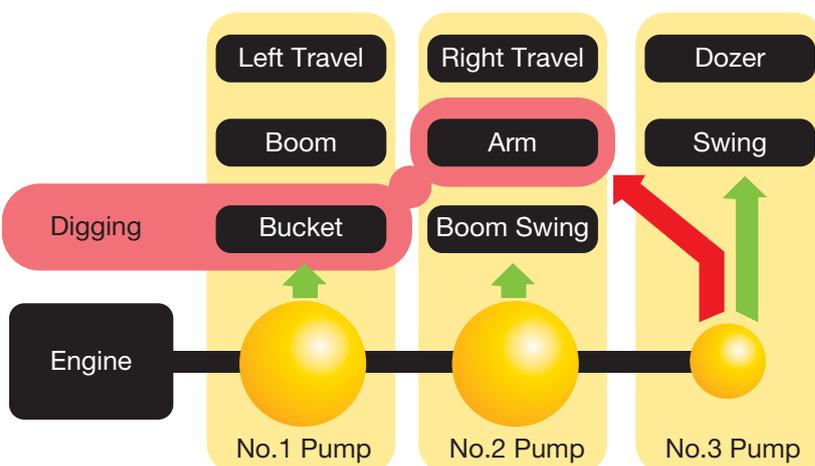

Features which grant the operator:

- Zero tail overhang, for easy working condition in very tight space and no concern about what is happening behind the machine
- A small working distance of only 2120 mm, to safely work in very tight quarters
- To enjoy the comfortable and safe stability of the machine with fully extended undercarriage gauge and blade
- To use the narrow undercarriage gauge and folded blade to go through very narrow passages
- To easily load the machine on a 2.0 tonne truck

OUTSTANDING HYDRAULIC PERFORMANCE

Same solution of upper class models: integrated flow pump system

The instant the machine begins to dig, extra output from the third pump (which otherwise powers the swing and dozer circuits) is directed to the arm circuit for added power and speed. This ensures, even under heavy loads, fast and smooth arm operation and total simultaneous movements.

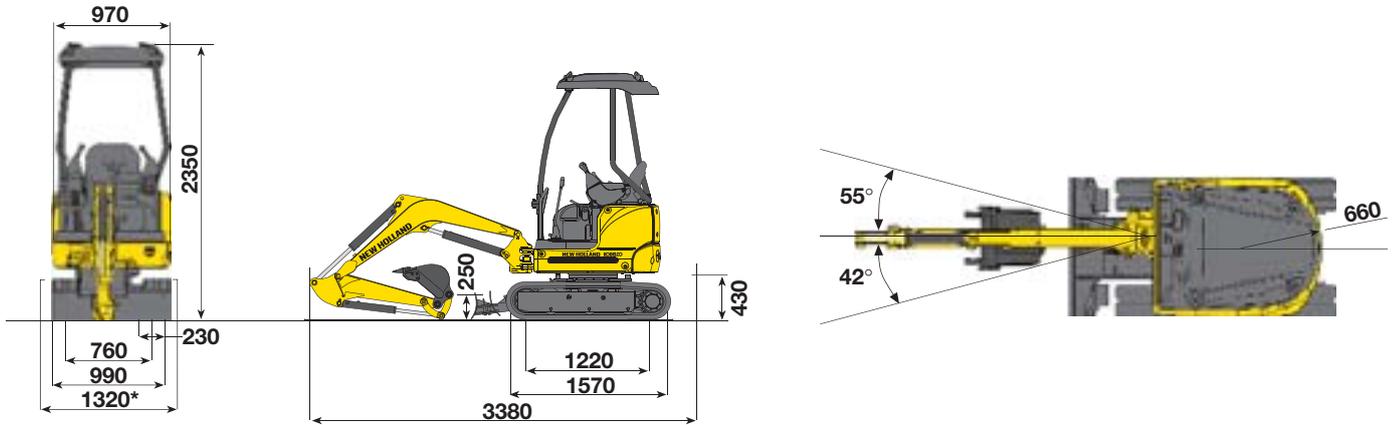

New, efficient, comfortable, durable and economic: a great small genius to boost your profitability.

* A product of the global alliance between NEW HOLLAND and KOBELCO

E18SR
